Next Generation Sunshine State Standards (NGSSS) for the Arts Overview

- **Purpose**
  - Next Generation Sunshine State Standards (NGSSS) provide new benchmarks to guide rigorous instruction and assessment to ensure that students are college and career ready.
  - They also provide Associated Access Points for students with severe cognitive disabilities.

- **Implementation**
  - All teachers must use the Next Generation Standards that are listed in the new course descriptions this coming 2012-13 school year.
  - Daggered courses (a) – use the standards already associated with them. These courses will no longer be available for use beginning with the 2013-14 school year.
NGSSS - Features

- NGSSS benchmarks were created to address the increased levels of achievement registered by students and in response to evidence from both national and international measures of student achievement indicating the need for higher levels of challenge for all of our students.

- NGSSS benchmarks are more focused upon higher order thinking skills. There is significant emphasis on cognitive processes, aesthetic awareness, analysis, technology, creativity, multi-faceted problem-solving, learning for transfer, and 21st-century skills.

- In many cases, the benchmarks capture what arts educators have been doing with students as an integral part of their instruction. In other cases, the benchmarks challenge arts educators to strengthen their focus on process, depth, and increasingly rigorous student inquiry and self-assessment as a natural part of the learning process.
NGSSS Arts - Framework

- **Big Ideas** — (the “10,000-ft. view”) They provide a broad view for Arts Education.

- **Enduring Understandings** — (the “5,000-ft. view”) Their purpose is to provide additional focus within the Big Idea that will facilitate teachers’ work in designing essential questions for their lesson plans.

- **Benchmarks** — (the “ground-level view”) Their purpose is to guide instruction and assessment, and to help students discover the Enduring Understandings and Big Ideas over time. These are measurable.
What are access points?

As part of the revision to the Sunshine State Standards, access points for students with significant cognitive disabilities have been developed. These access points are expectations written for students with significant cognitive disabilities to access the general education curriculum. Embedded in the Next Generation Sunshine State Standards, access points reflect the core intent of the Standards with reduced levels of complexity. The three levels of complexity include participatory (Pa), supported (Su), and independent (In) with the participatory level being the least complex.
Example:

**MU.4.C.1.1**

- **Music**
- **4th Grade**
- **Big Idea Critical Thinking**
- **Enduring Understanding 1 Cognition and Reflection**
- **Benchmark 1**
NGSSS - Benchmark Explanation

Benchmarks codes are written in the following format:

**MU.4.C.1.1**

- The first two letters indicate the content area.
- The first number (or letter in the case of Kindergarten) indicate the grade level.
- The next letter indicates the Big Idea.
- The following number indicates the Enduring Understanding.
- The final number indicates the benchmark.
All courses that will be offered for the 2012-13 school year can be found in the CCD. http://www.fldoe.org/articulation/CCD/1213.asp

View the narrative section at the same web page for important information that will guide you as you look at the CCD (e.g. symbols and required certifications for courses).

Examples of Cross Curricular Integration

- **M/J Theatre 2** includes the following Language Arts Standard within its course description - (LACC.7.RL.2.5) “Compare and contrast a story, drama, or poem to its audio, filmed, staged, or multimedia version, analyzing the effects of techniques unique to each medium (e.g., lighting, sound, color, or camera focus and angles in a film).” This might be used in conjunction with teaching the Theatre Benchmark – (TH.68.C.3.2) “Compare a film version of a story to its original play form.”

- **Elementary Intermediate 2 (4th grade)** includes the following science benchmark – (SC.4.P.10.3) “Investigate and explain that sound is produced by vibrating objects and that pitch depends on how fast or slow the object vibrates.” This benchmark coincides well with the music benchmark - (MU.4.H.3.1) “Identify connections among music and other contexts, using correct music and other relevant content-area vocabulary, and explore how learning in one academic area can help with knowledge or skill acquisition in a different academic area.”
Common Core Standards

- 10 Anchor Standards
- Rigor is increased as a student progresses to the next grade level.
- Common Core standards are embedded within arts courses. They can be found at the end of the course description.
- Grades K-5 – Common Core English Language Arts Standards are used where applicable.
- Grades 6-12 – Common Core Literacy in History/Social Studies, Science and Technical Subjects State Standards are used in most 6-12 courses for both writing and reading. However, some courses such as in the case of Theatre use the regular English Language Arts Common Core standards.
